EXPERIENCE

Chess Coach & Operations Manager Intern — *Chess Wizzania* Jan 2026 – Present

- Coach students in chess fundamentals and advanced strategy with structured, personalized training sessions.
- Manage scheduling, administrative workflows, and operational coordination to ensure smooth day-to-day functioning.

PROJECTS

Chess Tournament Swiss Pairing System — *Python*

- Built a Python automation tool implementing the Swiss pairing algorithm to generate fair, competitive round matchups for chess tournaments.
- Designed pairing logic that accounts for player scores, win/loss history, and previous opponent records to eliminate rematches.
- Streamlined tournament administration by removing manual pairing effort, improving accuracy and round turnaround time.

SkillForge — *Django, React, PostgreSQL*

- The project that got us to 7th position in the JNU Open Tech-Fest Hackathon.
- Built a full-stack AI-powered career platform with my teammates where students verify skills, receive personalized learning paths, and apply to jobs end-to-end.
- Designed the frontend of the project and gave it a user-friendly look and clear typography for easy navigation.
